

FACULTY OF COMPUTING

DEPARTMENT OF COMPUTER SYSTEMS AND ENGINEERING

IE3142 – DevOps Security

GROUP ASSIGNMENT – ETHICAL CLEARANCE FORM

This form must be completed and submitted by each group before commencing vulnerability testing or security assessment activities.

1. Group Information

Group Number	08
Student 1 – Name & ID	Senevirathna G.G.J.D.- IT24100919
Student 2 – Name & ID	Madusara P.H.G.S - IT24102945
Student 3 – Name & ID	Weerasinghe I.K.V.K - IT24103424
Student 4 – Name & ID	Pihara H.G.T - IT24102070

2. Selected Open-Source Application

Application Name	OWASP Juice Shop
Source Repository / Project URL	https://github.com/IT24100919/ie3142-devsecops-juiceshop.git
Application Version / Commit (if applicable)	20.2.0
Open-Source Licence	MIT License
Technologies / Programming Languages	Node.js, Express, TypeScript (backend) Angular, TypeScript (frontend) SQLite via Sequelize ORM (database) Docker, Nginx (containerisation and reverse proxy)

3. Planned Security Activities

☒ Application architecture analysis	☒ Threat modelling and risk assessment
☒ Static Application Security Testing (SAST)	☒ Dependency / Software Composition Analysis (SCA)
☒ Secrets scanning	☒ Vulnerability identification and controlled demonstration
☒ Secure coding modifications and re-testing	☒ CI/CD security testing

4. Ethical Declaration

1. The selected application is open-source software and will be used in accordance with its applicable licence.
2. All testing will be performed only on copies of the selected application that the group is authorised to use and test, preferably in a local, isolated or controlled environment.
3. The group will not scan, exploit or test live third-party systems, websites, APIs, servers, networks or user accounts without explicit authorisation.
4. Vulnerability demonstrations will be conducted solely for educational purposes within the scope of the IE3142 assignment.
5. The group will not intentionally access, collect, modify, disclose or distribute real personal, confidential or sensitive data.
6. External code, tools, vulnerability information and other resources used will be appropriately acknowledged and referenced.
7. Any vulnerabilities discovered will be handled responsibly and will not be used for malicious purposes.
8. The group accepts responsibility for complying with Institute policies and applicable ethical and legal requirements.

5. Group Declaration and Signatures

We confirm that we have read and understood the above conditions and agree to conduct all assignment activities within the stated ethical boundaries.

Group Member	Student ID	Signature	Date
Member 1	IT24100919		26/09/2026
Member 2	IT24102945		26/09/2026
Member 3	IT24103424		26/09/2026
Member 4	IT24102070		26/09/2026
